PROFILE

Frontend Developer with a Design background - I have almost 10 years of experience in the Fashion Design area. I am an open-minded, creative, focused and a persistent person, who appreciates to create applications from scratch - from the UI Development until the app final stage.
My brief UI design experience - while learning to code - led me to develop important and useful skills, that is, user-friendly, but always taking into account a beautiful and well-made Design.

Currently, I work with:
=> Development of Low and Hifi Wireframes - Web Interface Mockups - Prototyping using Adobe XD
=> I transfer the design into code with HTML, CSS, JavaScript, React.js, Responsive design and API
=> I use mostly Material UI and Chacka UI in my Projects, but also plain CSS
=> Love, patience and dedication

EXPERIENCE

VOLUNTEER - FRONTEND DEVELOPER
Redezeit für Dich - Hamburg, Germany 🔗
October 2022 until present day

=> At the moment I work as a volunteer in this Project focused on mental health. I make small frontend changes, as well as create small new features using Remix Framework (Typescript).
